Quit Outcome Appointment

Some fields may differ

**3. Quit Outcome Appointment**

Your organisation is marked as a **Test Provider** however, provisions saved here will be treated the same as for any other provision:

- They appear in activity reports
- They can be claimable against funding\* to generate claims
- They will send secure email patient notifications\*

If you need to test a particular feature by saving provisions, "Cancel" them as soon as possible. Provisions cannot be deleted from the system.

**Evaluation of quit status**  
This stage should only be used at the four week quit evaluation to measure quit status.

Consultation date: 10-Apr-2019

Client Name: [Empty]

If Client Name is not registered, click here to enter 1. Stop Smoking - Registration and First Appointment

Contact type: [Face to face]

85% of quits **MUST** be CO validated

Unlicensed support: [Empty]  
i.e. Unlicensed Nicotine-Containing Products

**Support Required**

- NRT supply required
- Champix prescription request
- Zyban prescription request
- No Support Required

You will be shown on each weekly session how many days it has been since the clients quit date and when you can record the Quit Outcome. Do this at the earliest opportunity so that the quit outcome is recorded if you then lose contact with the patient. You won't be able to enter details if the dates are invalid.

Contact type: Face to face

85% of quits **MUST** be CO validated

**CO Evaluation - Only appears for In person contact**
